

Lady Pepperrell House

Maine 103, Kittery Point

This distinguished example of high-style Georgian architecture was built between 1760 and 1765 by Lady Mary Pepperrell, widow of Sir William Pepperrell, wealthy businessman, military commander, and America's only designated baronet. The two-story frame house features a hipped roof, modillioned cornice, and gabled center pavilion with two-story Ionic pilasters. The house is maintained as a private residence.
